Brass Adjustable Hex Nipples

FEATURES:

- Adjustable Threads for Perfect Positioning
- Standard NPT Tapered Pipe Threads Both Ends
- Especially Useful When Installing Cascade Heads, Hex Elbows, etc. Inside Molds and Slides
- Longer or Special Exact Lengths Available
- Also Available in Special Thread Combinations

Extended Brass Plugs

Designed to eliminate the installation problems of soldering, welding, etc. of connector plugs to steel pipe nipples. Once installed, the advantages of flush mounted mold connector plugs are many. Sealing surfaces of plugs are protected, while handling and storage of the mold is made easier.

- Length Adjustments are Easy With A Pre-cut Thread System
- 1-piece Construction for Fast Assembly, Positive Removal
- Available in Brass, Stainless, or Plated Steel
- Compatible with All Major Mold Connection Systems
- End Threads Tapered for Standard NPT Pipe Assembly

Length Adjustments & Installation

1. When special length adjustments are required, simply cut piece to length and chamfer end.

2. Turn into standard pipe threading die to re-taper threads.

3. At assembly, the tapered brass threads provide a dependable leak-proof seal. With one-piece construction, removability is always guaranteed.

Brass Combination Hose Inserts

FEATURES:

- Eliminates Multiple Fittings and Assembly — Put A Combination Hose Insert on One End of a Hose and a Coupler on The Other — Hoses May Then Be Snapped Together in Series
- All Flow Diameters Maximized to Reduce Restrictions
- For Use with Push-Lock or Standard Hose

Brass Hexkey Extension Elbows

FEATURES:

- Round Design Allows for Close Connections
- Extra Heavy Duty Hex Socket and 1-piece Construction Ensure Positive Assembly and Removal
- Hexkey Extension Elbows are Round and Install With an Allen Wrench — Wrench Clearance is Not Required, Making These Elbows Ideal for Use Inside the Mold or Anywhere Space is Limited
- Angular Flow Path Allows Connecting Pipe Fittings to be Torqued Tight Without Choking Off Flow
- Accurate Length Adjustments are Easy With the Patented Thread System
- Specifically Designed to Maintain High Flow Rates and Improve Cycle Times

Brass Hexkey Extension Pipes

FEATURES:

- Heavy Duty Internal Hex Socket
- Hexkey Extension Pipes are Available in a Wide Variety of Special Lengths and Threads
- Accurate Length Adjustments are Easy With the Adjustable Thread System

*To order, insert desired overall length; Example: PT14-24B
Pipe plug also available in steel or stainless steel.

Brass Adjustable Hex Nipples

FEATURES:

- Adjustable Threads for Perfect Positioning
- Standard NPT Tapered Pipe Threads Both Ends
- Especially Useful When Installing Cascade Heads, Hex Elbows, etc. Inside Molds and Slides
- Longer or Special Exact Lengths Available
- Also Available in Special Thread Combinations

PART NO.	PIPE SIZE (NPT)	"A"	HEX SIZE	OVERALL LENGTH "L"

Cam & Groove Couplers

Available in 4 Different Materials For Use On All Types Of Hose

Aluminum

MATERIAL COMPONENTS:

- Buna-N Gaskets
- Aluminum Alloy — Specially Designed for High Tensile Strength, Lightness & Rigidity
- Brass Handles
- 315 Stainless Steel Pins
- Rings made from Spring Steel and Cadmium Plated

QUALITY CONTROL:

- Exacting Quality Control in Every Phase of Manufacturing Enables Compliance with Mil. Spec. 27487
- Interchangeable with Similar Types of Couplings That Are Manufactured to the Same Standards

WORKING PRESSURES:

- Tightness Under Pressure and Vacuum
- Tested at 300 psi up to 4" Size; 200 psi for 6" Size

Brass

MATERIAL COMPONENTS:

- Buna-N Gaskets
- Brass — Specially Designed for High Tensile Strength & Rigidity
- Brass Handles for Superior Strength
- Stainless Steel Pins
- Rings made from Spring Steel and Cadmium Plated

QUALITY CONTROL:

- Exacting Quality Control in Every Phase of Manufacturing Enables Compliance with Mil. Spec. 27487
- Interchangeable with Similar Types of Couplings That Are Manufactured to the Same Standards

WORKING PRESSURES:

- Tested at 150 psi up to 4" Size; 75 psi for 6" Size

Stainless Steel

MATERIAL COMPONENTS:

- Buna-N Gaskets
- Produced in Stainless Steel 316 (ASTM A351 Grade CF8M)
- Every Melt in the Foundry is Analyzed for Chemical Composition — A Chemical Test Certificate Showing the General Composition is Available Upon Request
- 304 Stainless Steel Pins
- Sintered Stainless Handles for Superior Strength
- Rings made from Spring Steel and Cadmium Plated

SAFETY FEATURE LOCKING HANDLES

QUALITY CONTROL:

- Exacting Quality Control in Every Phase of Manufacturing Enables Compliance with Mil. Spec. 27487
- Interchangeable with Similar Types of Couplings That Are Manufactured to the Same Standards

WORKING PRESSURES:

- Tested at 150 psi up to 4" Size

Sizes 1¼", 1½", 2", 2½", and 3" coupler parts B, C, D, and DC are supplied with a locking feature. Safety pins may be inserted to make locking handles to prevent disconnection during product transfer.

**Also available in 304 Stainless Steel

Replacement Gaskets

- Available in Buna-N (furnished as standard on parts B, C, and DC)

Buna-N Material Good for Oil Resistance and General Purpose Usage

Note: Replacement handle assemblies available on request.

Glass-Reinforced Nylon

MATERIAL COMPONENTS:

- Buna-N Gaskets on Parts B, C, D & DC
- Stainless Handles for Superior Strength on Some Models

SAFETY FEATURE LOCKING HANDLES

WORKING PRESSURES:

- Tested at 175 psi for ½" to 1" Size; 150 psi for 1½" to 2" Size; 125 psi for 3" Size; and 75 psi for 4" Size
- Temperature Range: -30°F to +200°F

Coupler parts B, C, D, and DC are supplied with Stainless Steel handles. Use safety clips provided in handles to make locking handle.

Cast Aluminum Quick Couplers

Specially designed as a quick acting coupler to fit over .065 aluminum tubing for **dry pneumatic systems only**, creating a full flow system minimizing material build-up. The rubber gasket in the nut compresses around the aluminum tubing and forms a seal when it is firmly tightened. Our SH Series Tigerflex PVC suction hoses that are fitted with a part "C" or "E" can be attached to the pneumatic conveying system that is fitted with a part "BC" or "FC".

Compression Quick Couplers
