MS22/90 Heavy Duty Cleaner/Degreaser

MS22/90 does not contain any chlorinated solvents. It is recommended for heavy duty cleaning and degreasing jobs when effectiveness and strong action are needed to accomplish the task. This product is useful on machinery, floors, work areas, and for degreasing metal parts. It is not recommended for use on electrical components or contacts, nor is it recommended for use on a running motor.

VOC Compliant, OTC Compliant

Packaged twelve 20 fluid ounce (15 oz. net weight) cans per case.

MS303 Foam & Fabric Spray Adhesive

MS303 is designed to work well on urethane foam, fabric, metal, supported vinyls, wood, paper and leather. It is orange in color and offers a unique lace spray pattern for low soak-in on polyurethane foam. It offers a soft pliable bond and a better build of glue at the bond line. It is extremely economical compared to other brands.

Packaged twelve 20 fluid ounce (13 oz. net weight) cans per case.

Lubricants / Maintenance

MS100 Heavy Duty Silicone Lubricant

MS100 is a multipurpose, 6% high viscosity silicone spray for general maintenance applications that can smooth the flow of production by reducing friction and binding. It can be used in molding, cutting, sawing, and slicing operations where friction or sticking decreases output. An excellent product to prevent the formation of rust, static electricity, or the buildup of inks and adhesives. It is odorless and stainless in most applications.

Packaged twelve 20 fluid ounce (13 oz. net weight) cans per case.

MS1080 Paintable Mold Release

MS1080 is our most popular all purpose paintable release agent. It's economical to use, eliminates costly cleanups, and is universally accepted by injection, extrusion and compression molders, permitting high speed production. Does not build up and does not interfere with painting, hot stamping, vacuum metalizing or gluing. It can be used on most substrates including rubber, acrylics, polyesters, polystyrenes, and cellulose.

Packaged twelve 20 fluid ounce (11 oz. net weight) cans per case.

MS1680 Economy 3% Silicone Release Agent

MS1680 is a universal silicone type release agent recommended for injection, RIM, rotational molders, extruders and vacuum formers. This product can be used with all common resins. This silicone and all others may interfere with a post decorating step. Care should be taken when needing to paint, hot stamp, vacuum metalize or glue (testing should be performed). Silicone release agents generally are recognized as effective for releasing hard to work resins. In addition to being a release agent, silicones are excellent general purpose lubricants for a variety of industrial applications.

Packaged twelve 16 fluid ounce (9 oz. net weight) cans per case.
